VPN Free Betternet Hotspot VPN Private Browser Betternet VPN is a free and unlimited VPN (Virtual Private Network) proxy for Android devices. Betternet VPN masks your IP address, encrypts your Internet traffic, turns public Wi-Fi into a private network, and helps unlock websites and apps on your Android phone so you can access any limited presence securely and anonymously. VPN (Virtual Private Network) works just like Tor Proxy, also known as the Onion Router, to hide IP address and bypass Internet censorship, overcome geo-restriction and access the desired content. However, VPN (Virtual Private Network) has a much faster connection speed and better data protection and security protection than Tor (the Onion Router). Three key features of a virtual private network (VPN): Incognito browsing: With a VPN, you don't even need to install an incognito browser. Simply turn on your VPN and all your Internet traffic is fully encrypted. Your online activities are completely anonymous. Wifi security: Because all your online traffic is encrypted via a VPN, no matter which public Wi-Fi hotspot you want to access, you'll be protected from public Wi-Fi risks and enjoy full Wi-Fi security. Location spoofer: VPN hides your IP address so that your location is masked and you can bypass geo-restrictions to access content anywhere. Install Betternet VPN Now: Unlock Websites and Apps: You can unlock all apps or websites with Betternet for free and unlimited VPN. bypassing state censorship and to access social networks like Facebook, Twitter, Youtube and Snapchat etc from anywhere! Anonymous connection and privacy: A VPN masks your IP and location and can no longer track your activities on the Internet. Betternet VPN service is your privacy protection and better than web proxy server. Back up your device: Betternet secures the connection of your Android device while you are connected to public Wi-Fi hotspots or cellular data networks. It works like a free Tor proxy (the onion router), but it's even more secured. Your password and personal data are secured and you are protected from hacker attacks. Surf anonymously at Fast Speed: Betternet is fast! It automatically detects your location and connects you to the nearest and fastest server. This makes your connection much faster than any other VPN or proxy provider. Shield WiFi Hotspot: Public Wi-Fi hotspots are perfect places for hackers and if they happen to get a grip on your personal information, you could very well be the next victim of identity theft! Betternet VPN Proxy uses advanced VPN technology to encrypt your network traffic so that you can connect to a website via HTTPS, providing a secure shield for your Wi-Fi hotspot. Cost of Betternet Premium Hotspot VPN Originally there is a paid subscription between users and the possibility to access Betternet Premium. So we've also listed the different prices so that users understand the difference between subscriptions and devices. One thing to keep in mind, getting the subscription services directly from the main site allows you to save more than 50% on different packages. This is definitely the way to go if you decide to pay for your premium access. The website's subscriptions are as follows: USD 11.99 per month - 1 month of access USD 23.99 for 6 months – this grants USD 3.99 per month, saving you 50% of your plan. A .35.99 for one-year - This plan is reduced to a whopping USD 2.99 per month. This means that you save up to 66% per month when choosing this plan. The Android subscription purchases are detailed as follows: 11.99 USD per month – also for the website, this is the 1-month access. €47.99 for 6 months – you can really see the difference between the versions here. The One Year Access is ridiculous price, as you can see. Therefore, it is recommended to get the plan directly from the website.
